THE WATER CYCLE WATER GOES 'ROUND & 'ROUND

Draw arrows in the diagram below to indicate where water moves through the water cycle. The arrows should show evaporation (including transpiration), condensation, precipitation and collection.

Precipitation

Evaporation

Condensation

Collection

Transpiration

Evaporation

Write down the change of state of the water in each part of the cycle in the above diagram. For example, water changes from a liquid to a solid when it forms snow.

Evaporation: From a to a

Condensation: From a to a

Precipitation: From a to a

Collection: From a to a
